[Albert Einstein and Relativity for Kids by Jerome Pohlen](#)

Albert Einstein and Relativity for Kids is marketed as a book for children in Grades 4 to 6 but I feel that this book is probably too advanced and contains too much detail for the lower end of that group. I would suggest this book is better used for older children aged 12+ who have a keen interest in relativity and for those studying the early 20th century. Pohlen's style is readable and

Albert Einstein and Relativity for kids is a softcover book divided into 8 chapters with different 21 activities. Some of these activities are familiar, and other take regular household items and add a teaching element I wouldn't have considered otherwise. Most are hands on, but some are writing assignments. It is written by Jerome Pohlen.
