Home tonometry in childhood glaucoma: clinical indications ...

Home rebound tonometry is a beneficial tool for the management of childhood glaucoma, yet is not commonly used. In this study, 29 childhood glaucoma patients were recruited for twice daily home intraocular pressure (IOP) monitoring using an icare rebound tonometer.

How does open angle glaucoma happen? - Quora

Open angle glaucoma could be primary (for which there is no known cause), or it could be secondary , ie there is a known underlying cause. In trying to explain how glaucoma happens, an answer really needs to address 2 things. First is how increased intraocular pressure damages the optic nerve, and secondly what causes the rise in intraocular pressure that occurs in the majority of

glaucoma cases.

#### **Kugler Publications**

The global faculty, consisting of leading authorities on the clinical and scientific aspects of childhood glaucoma, met in Vancouver on July 16, 2013, just prior to the World Glaucoma Congress, to discuss the reports and refine the consensus statements.
