[Cold River by William Judson - Goodreads](#)

It was a pretty cool book. Cold River is the story of an Adirondack guide who takes his young daughter and stepson on a long camping trip in the fall of 1932. When winter strikes unexpectedly early he suffers a fatal heart attack, leaving his two children to find their own way home without food, or protection from the elements. My favorite part in the book is when they have to find their way home.
