Health-Related Quality of Life in Cardiovascular Patients ...

Health-related quality of life (HRQoL) is taken to include physical, psychological, and social aspects of positive well-being as well as negative effects of illness, treatment, and infirmity. Quality of life outcomes are now considered an important indicator of the success of both diagnostic and therapeutic procedures. In this book, recognized experts discuss the findings of various studies, including their own, regarding HRQoL in patients with cardiovascular diseases. The impact of the
