**Project MUSE - Historical linguistics and the comparative ...**

As indicated by the title, this important new work attempts to wed the traditional field of historical linguistics with the comparative study of African languages. This is a particularly welcome effort by one of the world's most distinguished scholars in African linguistics. Although most of Gerrit Dimmendaal's research has centered around Nilotic and adjacent areas of East Africa, much of **Book review of Gerrit J. Dimmendaal, 2011, Historical ...**

Gerrit J. Dimmendaal has done the same and much more for students of African languages, generously pouring more than thirty years of scholarship into a careful, thorough, insightful, and rich description of the historical lives of African languages. Ultimately, this is more than the "advanced textbook" in historical comparative linguistics described on the publisher's website, but a **Historical Linguistics and the Comparative Study of ...**

This advanced historical linguistics course book deals with the historical and comparative study of African languages. The first part functions as an elementary introduction to the comparative method, involving the establishment of lexical and grammatical cognates, the reconstruction of their historical development, techniques for the subclassification of related languages, and the use of language-internal evidence, more specifically the application of internal reconstruction. Part II **Historical Linguistics and the Comparative Study of ...**
