INNATE IMMUNITY TO PULMONARY INFECTION

Symposium on Innate immunity to pulmonary infection, held at the Wolfson Pavillion, University of Cape Town Medical School, South Africa, 28-30 November 2005. L. A. Vella and O. J. Finn. Innate and adaptive immunity in lung cancer 206 Discussion 213 is the second Novartis Foundation symposium in Cape Town, but while TB will

INNATE IMMUNITY TO PULMONARY INFECTION

Mucosal immunity is an interesting example of interactions between epithelia and haematopoietic cells. Then of course we have something special: we are in the lung, but we also have the interactions with other systemic aspects of host responses. There are not only acute effects (emphasizing the innate aspects), but also long-

Innate immunity and inflammation two facets of the same ...

Innate immunity is the host's first line of defence against infection. In this review, we present the innate immune response implicated in three examples of pulmonary infection of viral, fungal and bacterial origin. We show that this defence against infection can be a double-edged sword. Thus, the
