Screaming to Be Heard: Hormonal Connections
Women Suspect ...

Screaming to Be Heard validates what women have suspected all along: hormones DO affect their health. This book by hormone specialist Dr. Elizabeth Vliet explains the connections between hormones and brain messengers that regulate memory, mood, sex drive, appetite, pain, and other body changes.

Screaming to be Heard: Hormonal Connections
Women Suspect ...

In her book "Screaming to Be Heard," Dr. Vliet presents compelling information on women's health concerns that have, for many reasons, been overlooked by the medical community. She discusses common health problems suffered primarily by women, and the relationships of these problems, both known and suspected, to a woman's hormonal levels. This book contains information related to women's health
