An astonishing inside account from an elite soldier, of the dramatic shift in the commercial security circuit post 9/11. After nearly twenty years of SAS operations, Bob Shepherd retired from the military to work as an adviser on the international commercial security circuit - simply referred to by its members as The Circuit.

I thoroughly enjoyed "The Circuit" by Bob Shepherd. The man has years of experience, and knows exactly what he's talking about. It really makes a change to read something that has actually happened, and not written by someone who has done his research in libraries or Military archives. This is a true life account written by Bob Shepherd of life on the circuit. It is a true to life book which doesn't glamorise the World of Close Protection but tells it how it really is. I found it an extremely informative book and dispels a lot of the glorified books out there as an Ex-Warrant Officer in the SAS, Bob Shepherd tells a true, honest and realistic account of life on the Circuit.
