While the Prempro arm of the Women's Health Initiative, which lasted 5.2 years and included 16,608 women, was a major test, it is only a small part of what I consider to be The Greatest Experiment Ever Performed on Women. The experiment began in England in 1938, and it has continued for sixty-five years. A British biochemist, desperate to prevent Nazi Germany from cornering the world market on [The Greatest Experiment Ever Performed on Women: Exploding ...](#)

Ms. Seaman's current book, "The Greatest Experiment Ever Performed on Women," is well timed to exploit the generalized confusion and anxiety recently generated among the millions of women who have taken hormone replacement therapy (HRT) in one form or another. Estrogens - "female hormones" - were prescribed for them as treatment for various peri-menopausal conditions, and also to prevent the
